

Cherryfield School Department ~ Cherryfield Elementary School  
2013 - 2014 MLTI iPad Take Home Agreement

The Apple iPad that is being provided to your child is part of the Maine Technology Learning Initiative (MLTI) instituted by the State of Maine. This initiative provides one-to-one computer access for grade 7-12 public school students and teachers. The intent of this initiative is to provide students access to this technology at home as well as at school, subject to local control. We want our students to be able to have this tool both at home and school. In order for this to happen, the following guidelines have been developed.

**General Guidelines**

1. Parents and guardians must assume financial responsibility for the iPad, charger, and case prior to the student being allowed to take them home.
2. Damage due to intentional misuse will result in the family being charged the full repair costs. Additionally, student negligence that results in a non-warranty repairs may result in the family being charged a portion of the repairs.
3. If the iPad is lost or stolen, contact the police as soon as possible. A police report is required by the Department of Education in order for a replacement to be provided.
4. The iPad issued to your student is solely their responsibility. The machine should not be used by siblings or friends.
5. When using the iPad at home, students should work in a common family area. It is solely the responsibility of parents to supervise their child's iPad & internet use outside the school setting.

**Device Specific Guidelines**

1. The iPad must remain in the protective SmartCase cover at all times. The device should be stored in the included carrying case when not in use.
2. Students must leave the identifying asset tag and name stickers on the iPad, charger, and cases. Students must not apply any other stickers or mark on the devices in any way.
3. Each student will be issued a district Apple ID (this will end in @mlti.net, and follow a specific format). This Apple ID will be tied to the provided apps included in the program. This Apple ID will remain with the student after they depart the program, and is the **only** supported Apple ID associated with the iPad.
4. Each student will be issued a Cherryfield School Google Apps account. This account will allow for easy student / teacher communication, and must be tied to the student's iPad. Other mail accounts will not be supported.
5. The student's iPads come preloaded with a variety of educational apps. These apps must remain on the iPad, and any iOS or app updates must be installed by the student when directed by district staff. Any additional downloaded apps deemed inappropriate by school staff must be deleted upon request.

*By signing below, I agree to the terms and conditions of the C.E.S. iPad Take Home Agreement.*
